PFEIFFER TO PRESENT THIRD ADDRESS  
IN UNIVERSITY CENTER LECTURE SERIES

MISSOULA--

Third in a free public address series by University of Montana faculty members will be presented Monday (May 7) by Dr. E. W. Pfeiffer, environmentalist and professor of zoology at UM.

The topic of Pfeiffer's address will be "Science, Society and Vietnam." Pfeiffer is an outspoken critic of the war and has made several trips to Southeast Asia studying the effects of bombing and chemical warfare on the Indochinese landscape.

The program, sponsored by the Program Council of the Associated Students of UM, will begin at 8 p.m. Monday in the UM Science Complex Auditorium. A coffee hour will follow the presentation.

The lecture series was established to encourage members of the University community to share with the general public their expertise on vital local and national issues of the day.
